3RD PARTY INTEGRATIONS

The below online business management tools and software can be integrated into your website.

3RD PARTY ACCOUNTS CAN BE INTEGRATED INTO YOUR APP OR SITE.

TELEVISION COMMERCIAL

TV is still the leading advertising medium for growing a brand.

Did you know that having a video on your website will keep visitors on your site 80% longer than without a video? You can put your TV commercial on your website, Facebook, Instagram, TikTok, YouTube, and you can even send it by email and text it to people. Also putting video on social media will enable others to share it and spread the word easily, so you can't go wrong with a commercial!

- Help people quickly understand your offers and products
- Communicate your message in a clear and concise manner
- Quickly and strategically convey your message
- Easily help your target audience to understand why they should **CHOOSE YOU** over your competitors

After we produce your commercial for you, there are a number of options to air your commercial locally or nationwide on major networks and even internationally. Visit www.TVcommercialsThatSell.com for more information.
